

Annex VIII. Comoros Inshore Monitoring Plan

We need two collections in the year

One of them in the first half of the year during the rainy season (April-May 2011).

The second in the second half-year during the drought (August-September 2011)

In three Islands of The Union of the Comoros we have programs to work on four sectors for every Island. Some sectors are close to cities and the others away from cities.

Sectors restarted as follows

Islands	Sectors	Dates of work
Anjouan	Presqu'île de Bimbini Pomoni-Moya Baie de Mutsamudu Ouani Pointe de Nyoumakele	Week one of May 2011
Mohéli	Ilots de Mchako Face Nioumachoua Zone de Fouboni Zone de Hoani	Week two of May
Grande Comores	Baie de Moroni Banc Vailieu Mitsamiouli Foubouni	Week three and four of May

The second activity will be in September 2011 in the same sectors
