

The Ballast Water Hazard - India Awakens!

Marine Safety Notice on Ship Ballast Water Control & Management

Presentations made at various Ports

On The Right Track

Various Mass Communication tools like posters, advertisement, news paper features, brochures have been developed for awareness building.

Two marine biology experts have been trained at South Africa to carry out the port base line survey at Mumbai port. Presentations made by experts at Cochin, Vishakhapatnam and Goa port as well as Shipyards.

After successful follow up with the Indian maritime administration a marine safety notice has been issued regarding ballast water management for the shipping industry.

Posters & Brochures for awareness building

Publicity through Mass Media
