The Land-Ocean Interactions in the Coastal Zone Project is a Core Project of the “International Geosphere-Biosphere Programme: A Study Of Global Change” (IGBP), of the International Council of Scientific Unions.

The LOICZ IPO is financially supported through the Netherlands Organisation for Scientific Research by: the Ministry of Education, Culture and Science (OCenW); the Ministry of Transport, Public Works and Water Management (V&W RIKZ); and by The Royal Netherlands Academy of Sciences (KNAW), and The Netherlands Institute for Sea Research (NIOZ).

This report and allied workshop are contributions to and supported by the:
EU Commission’s “Energy, Environment and Sustainable Development” Programme (Contract EVK1-CT-2000-60012), Sub-programme Environment and Sustainable Development and the project cluster “European Land Ocean Interaction Studies, ELOISE” supported by the European Commission Directorate General for Research; and

“The Role of the Coastal Ocean in the Disturbed and Undisturbed Nutrient and Carbon Cycles” (Project Number GF 1100-99-07), implemented by LOICZ with the support of the United Nations Environment Programme and financial assistance from the Global Environment Facility, GEF.
