

LOICZ Presentation

1) You want to give a short presentation on LOICZ? Please feel free to download the following general presentation.

Land-Ocean Interactions in the Coastal Zone

LOICZ

Structure – Objectives – Activities

Jaergen Weichselgartner & Hartwig Kremer
LOICZ International Project Office
Institute for Coastal Research, GISS-Research Center

Loicz Presentation

Presentation LOICZ (pdf)

2) You want to prepare your own LOICZ presentation? Please use our PPT template.

Please note: The template contains two slides and two Master slides:

In case you want to use the Master slides:

The first slide of the Master slide is the template for your own slides. This slide you can change and modify as you wish (embed a subtitle, date, logos etc).

The second slide is the Master slide for the cover page. Please do not change anything! If you want to add a title on your cover slide you can do it directly on the slide. You do not need to modify the master of the cover page.
