

LOICZ Current projects

Project name	Acronym	PT 1	PT 2	PT 3	ST I	ST II	ST III	ST IV	ST V
Arctic Coastal Dynamics II	ACD II				X	X			
Carbon Retention in a Colored Ocean	CARIACO		X					X	
Caribbean Coastal Scenarios	CCS	X		X	X	X	X		X
Coastal Futures II - Zukunft Küste (Phase II)	Coastal Futures II	X		X		X			X
ENCORA Coordination Action	ENCORA	X		X	X	X	X		X
EPOCA - European Project on Ocean Acidification	EPOCA	X	X			X		X	
European Sediment Research Network	SedNet		X		X	X	X	X	X
Global NEWS: Global Nutrient Export from Watersheds	Global NEWS	X	X			X	X	X	X
Nutrients and heavy metals transfer through the land-ocean interface at the coastal zone in coastal basins along the NE and SE coast of Brazil-Phase II	Nutrients and heavy metals transfer through the land-ocean interface at the coastal zone in coastal basins along the NE and SE coast of Brazil-Phase II		X				X	X	
Science and Policy Integration for COastal System Assessment	SPICOSA	X		X					X
SCOPE Biofuels: Environmental Benefits and Costs	SCOPE Biofuels	X	X	X	X	X	X	X	X
The role of two seagrass species in wave attenuation and coastal protection	The role of two seagrass species in wave attenuation and coastal protection		X			X			

Priority Topics:

- 1 - Link social and ecological systems in the coastal zone
- 2 - Assess and predict impact of environmental change on coastal ecosystems
- 3 - Link governance and science in coastal regions

Scientific Themes:

- 1- Vulnerability of Coastal Systems and Hazards to Society
- 2 - Implications of Global Change for Coastal Ecosystems and Sustainable Development
- 3 - Human Influences on River Basin-Coastal Zone Interactions
- 4 - Biogeochemical Cycles in Coastal and Shelf Waters
- 5 - Towards Coastal System Sustainability by Managing Land-Ocean Interactions
