

LOICZ Online Database

In the LOICZ database you will find an inventory of all LOICZ affiliated projects. We provide information about the projects to support you in finding information from your field of work as well as foster interdisciplinary research.

We do our best to protect our Principle Investigators (PIs) from spam and therefore do not publish their full contact details openly.

If you want to get in touch with individual PIs, please register and you will be able to view their full contact details.

Please follow the link to register or use the LOICZ Online project database

The image is a screenshot of the LOICZ Online Database website. At the top left is the LOICZ logo, which consists of a circular emblem with a green landmass on the left and a blue ocean on the right, separated by a black wavy line representing a coastline. The acronym 'LOICZ' is written in white at the bottom of the emblem. To the right of the logo, the text 'Land-Ocean Interactions in the Coastal Zone' is displayed in white on a dark blue background. Below this header is a navigation bar with the following links: 'Projects | Search Projects | Registration | Login'. Underneath the navigation bar, the text 'Welcome to LOICZ database online' is written in blue. The bottom section of the screenshot features a horizontal row of five small images: a sandy beach with turquoise water, a coastal town with buildings, a group of people on a beach with a boat, and a close-up of a river delta or estuary.
