

Regional Workshop on SEA Baseline Assessment

# SOCIAL SYSTEMS BASELINE ASSESSMENT

27-28 January, 2010 in Phnom Penh, Cambodia

# SOCIAL SYSTEMS – Key Issues

1. Poverty, Ethnic Groups & Livelihoods
2. Health & Nutrition
3. Resettlement, Migration, Population Growth, Urban Development & Human Trafficking

# Social Issue 1: Poverty, Ethnic Groups & Livelihoods

- National poverty alleviation strategies, policies & programmes
- Millenium Development Goals (MDGs) & key poverty indicators
- Poverty rates

# Issue 1: Poverty

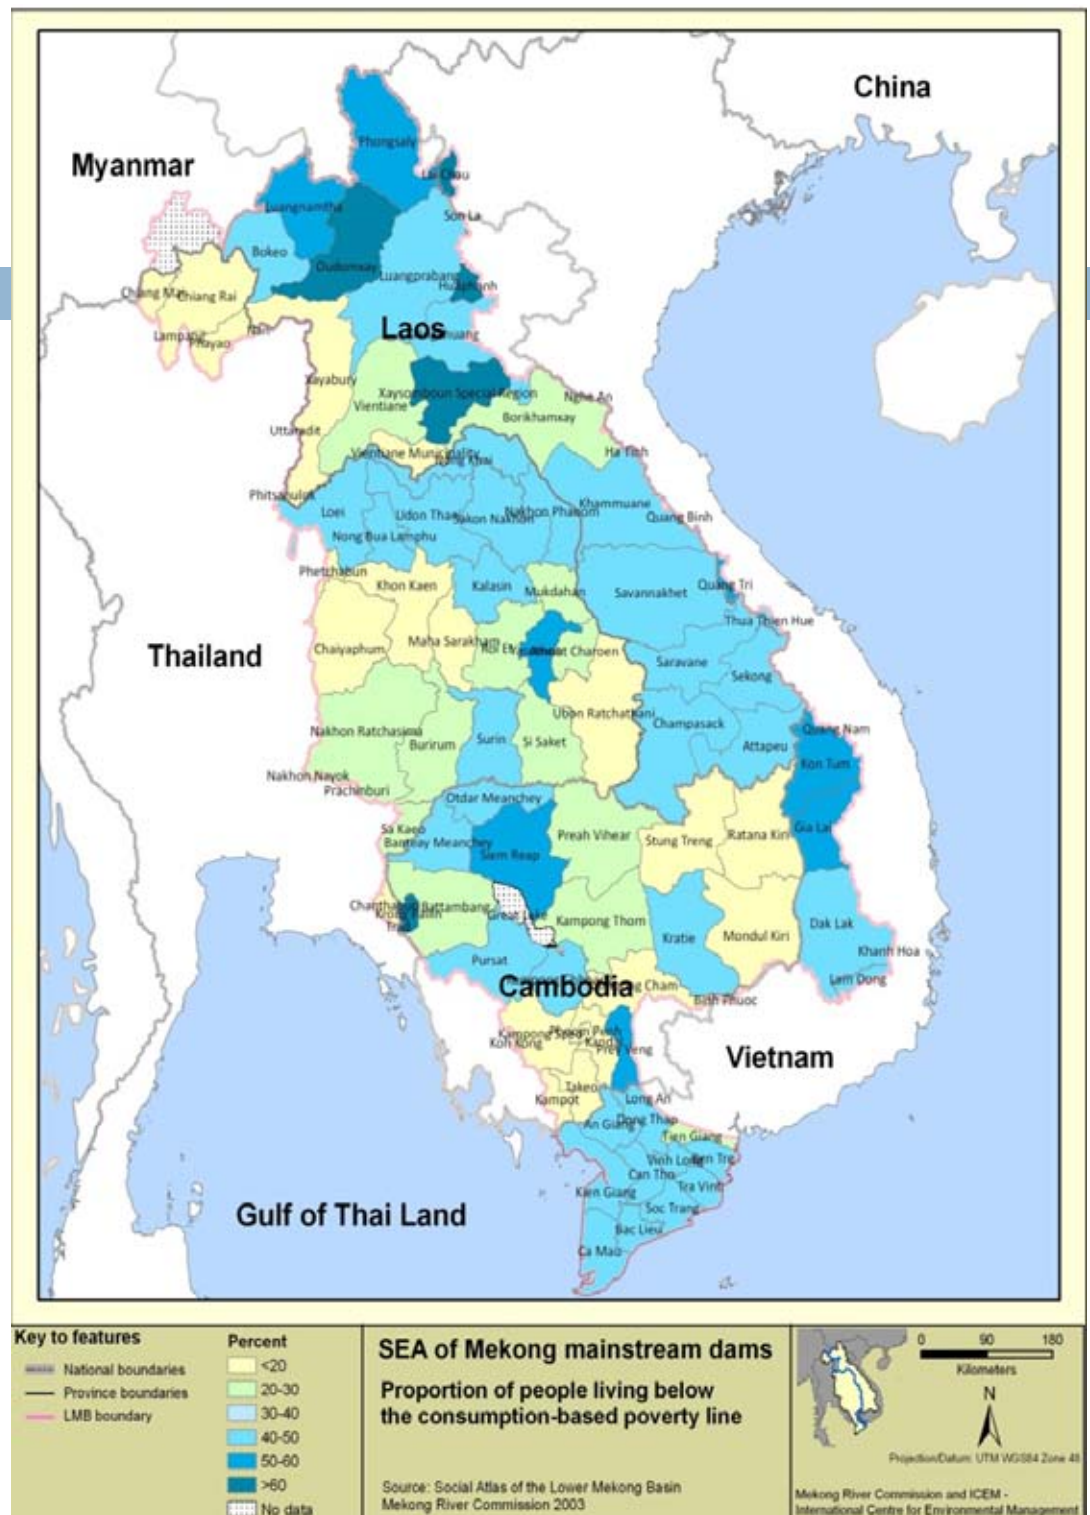

## Key national strategic plans & policies for poverty alleviation & socioeconomic development

Laos	Thailand	Cambodia	Vietnam
<b>Millenium Development Goals</b>			
National Growth & Poverty Eradication Strategy (NGPES), October 2003	MDG Plus 2007	National Strategic Development Plan 2001-2010	Hunger Eradication & Poverty Reduction Strategy 2001-2010
Sixth National Socio-Economic Development Plan 2006-2010 (NSEDP), Committee for Planning and Investment, October 2006	10th National Economic & Social Development Plan, 2007-2011	National Poverty Reduction Strategy	Comprehensive Poverty Reduction & Growth Strategy 2001
			Socio-Economic Development Strategy (SEDS) 2001-2010

# Issue 1: Poverty & MDGs

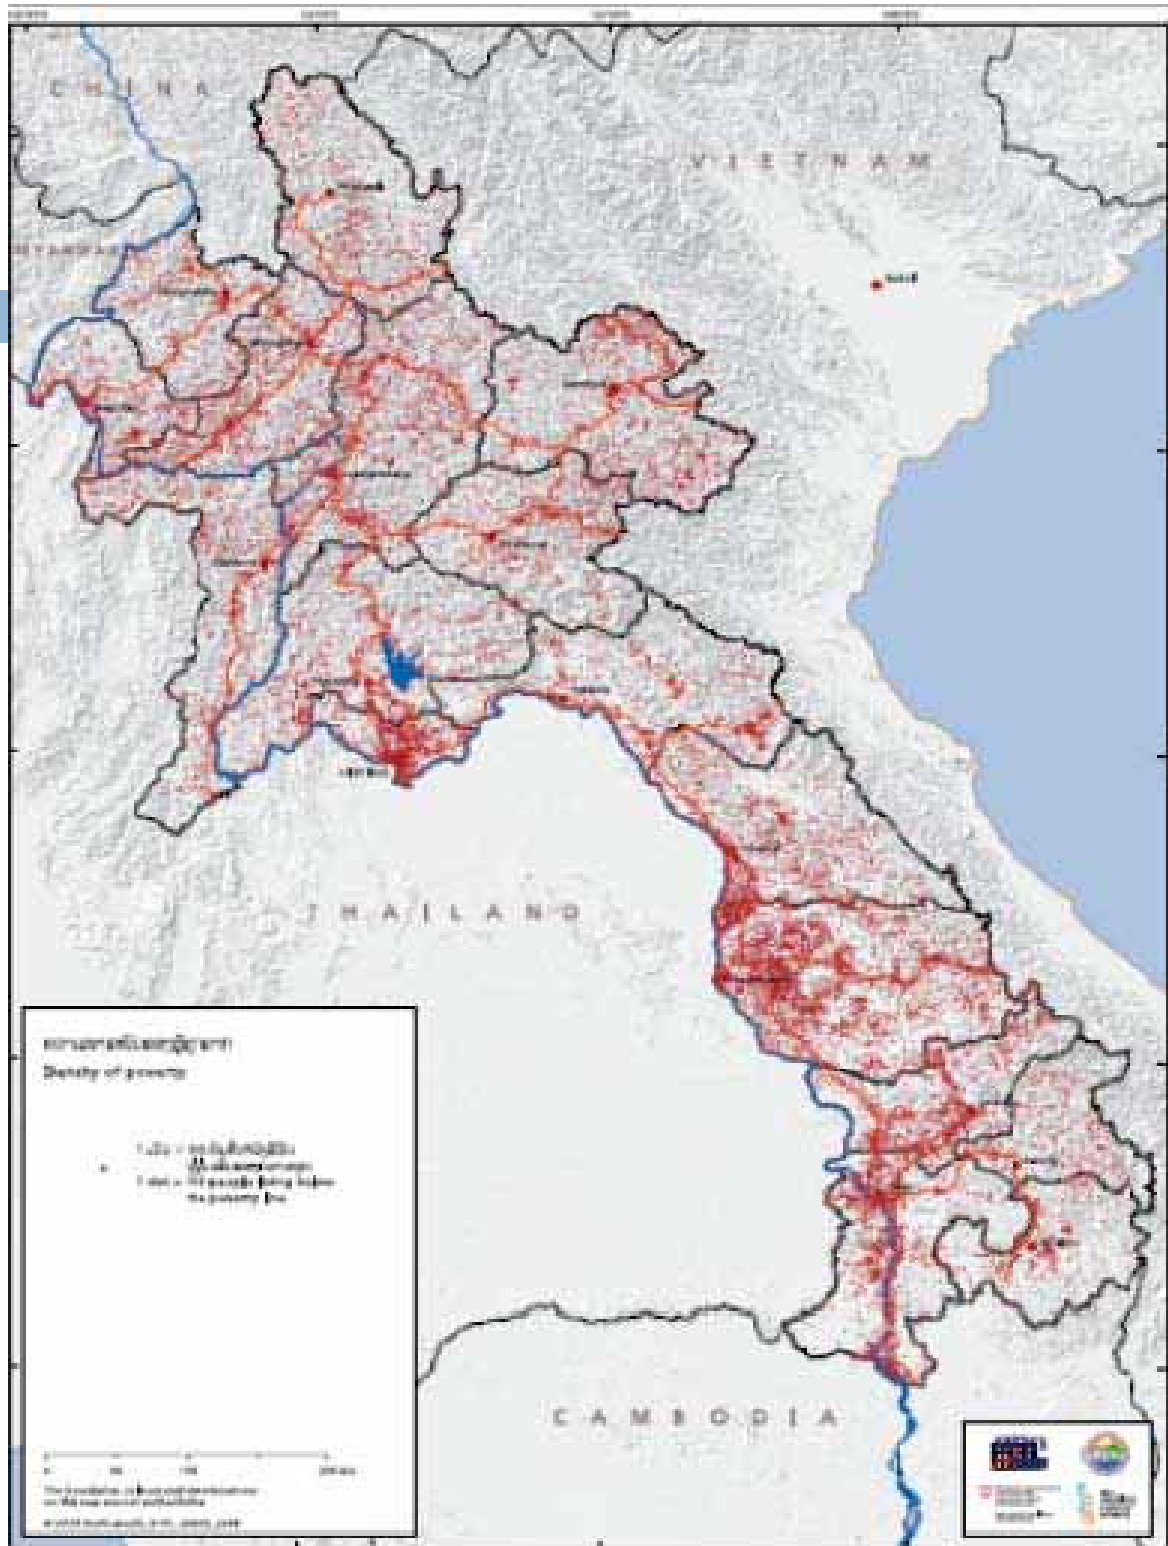

- Goal 1 Eradicate extreme poverty and hunger
  - Reduce extreme poverty by half
  - Reduce hunger by half
- Goal 2 Achieve universal primary education
- Goal 3 Promote gender equality and empower women
- Goal 4 Reduce child mortality
- Goal 5 Improve maternal health
- Goal 6 Combat HIV/AIDS, malaria and other diseases
  - Halt and begin to reverse the spread of HIV/AIDS
  - Halt and begin to reverse the spread of malaria and other diseases
- Goal 7 Ensure environmental sustainability
  - Halve the proportion of people without clean drinking water
  - Halve the proportion of people without sanitation

# Issue 1: LMB Poverty Rates

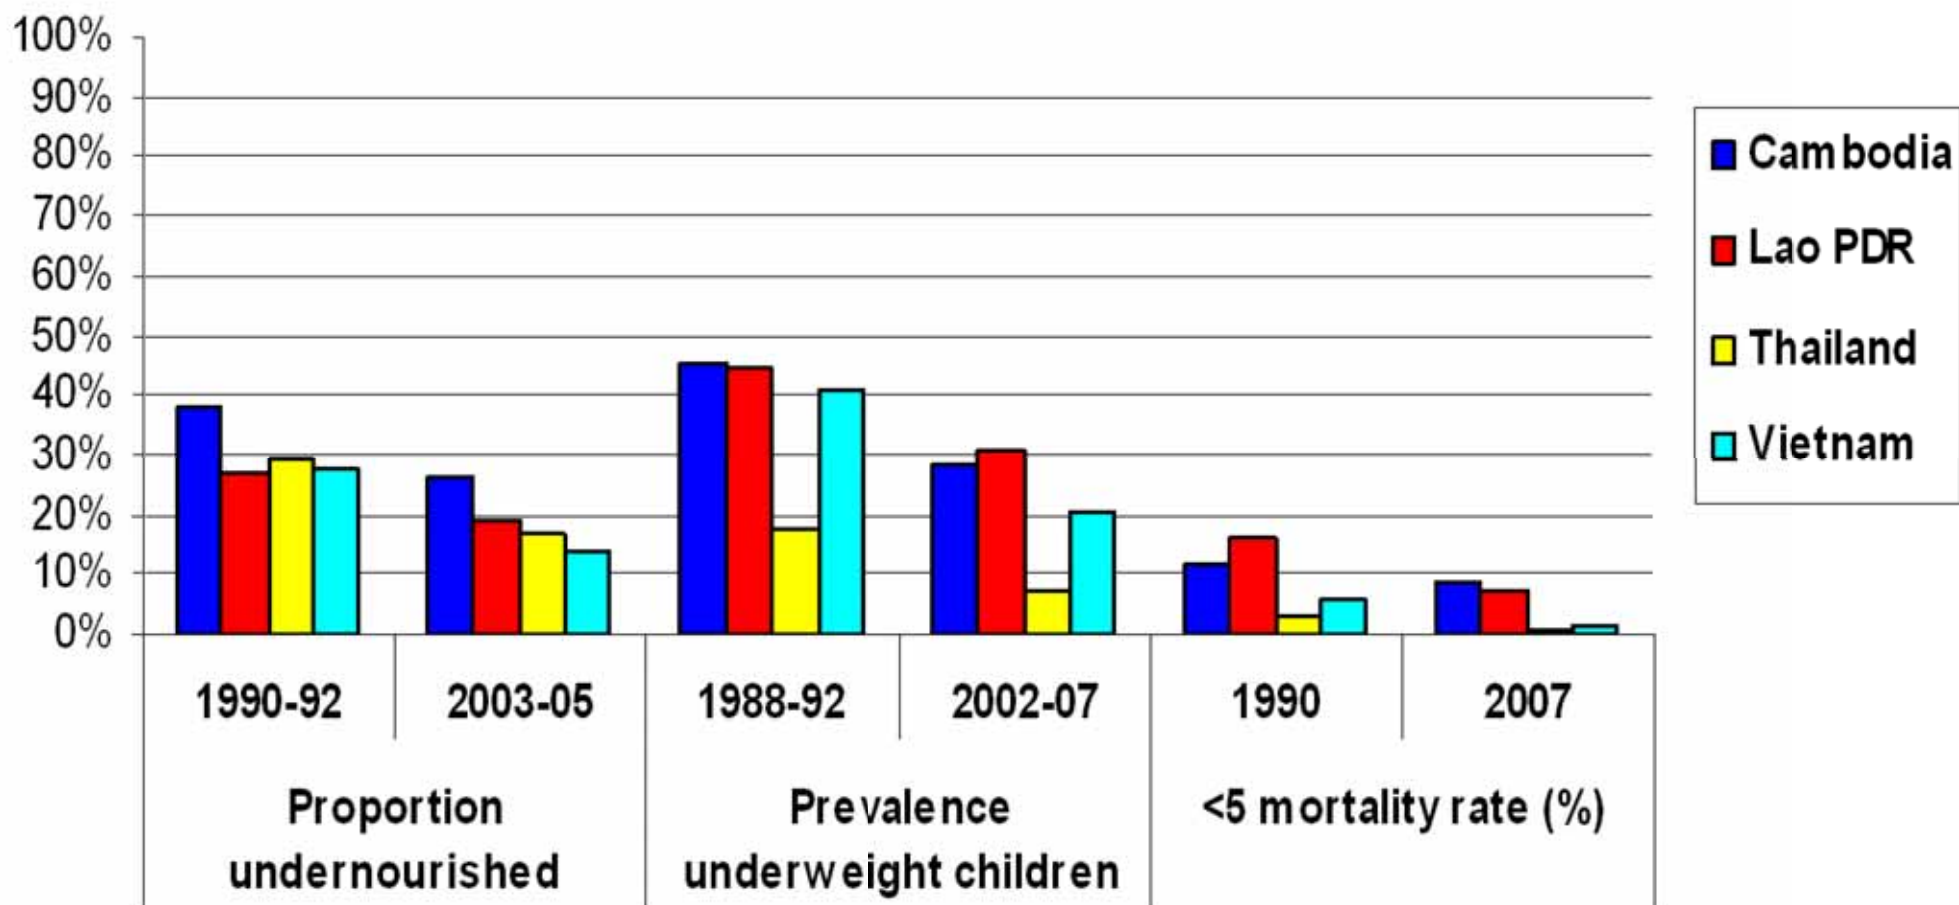

# Issue 1: Poverty density, Lao PDR

Each red dot equals 100 people living below the poverty line

# Issue 1: Poverty Reduction Trends in the LMB – some key indicators

# Social Issue 1: Poverty, Ethnic Groups & Livelihoods

- Ethnic groups and the Mekong River
- Poverty related to ethnic identity

# Ethnic Groups in LMB countries

□ Cambodia

□ Thailand

□ Lao PDR

□ Vietnam

□ 36 ethnic groups, 4% of national population

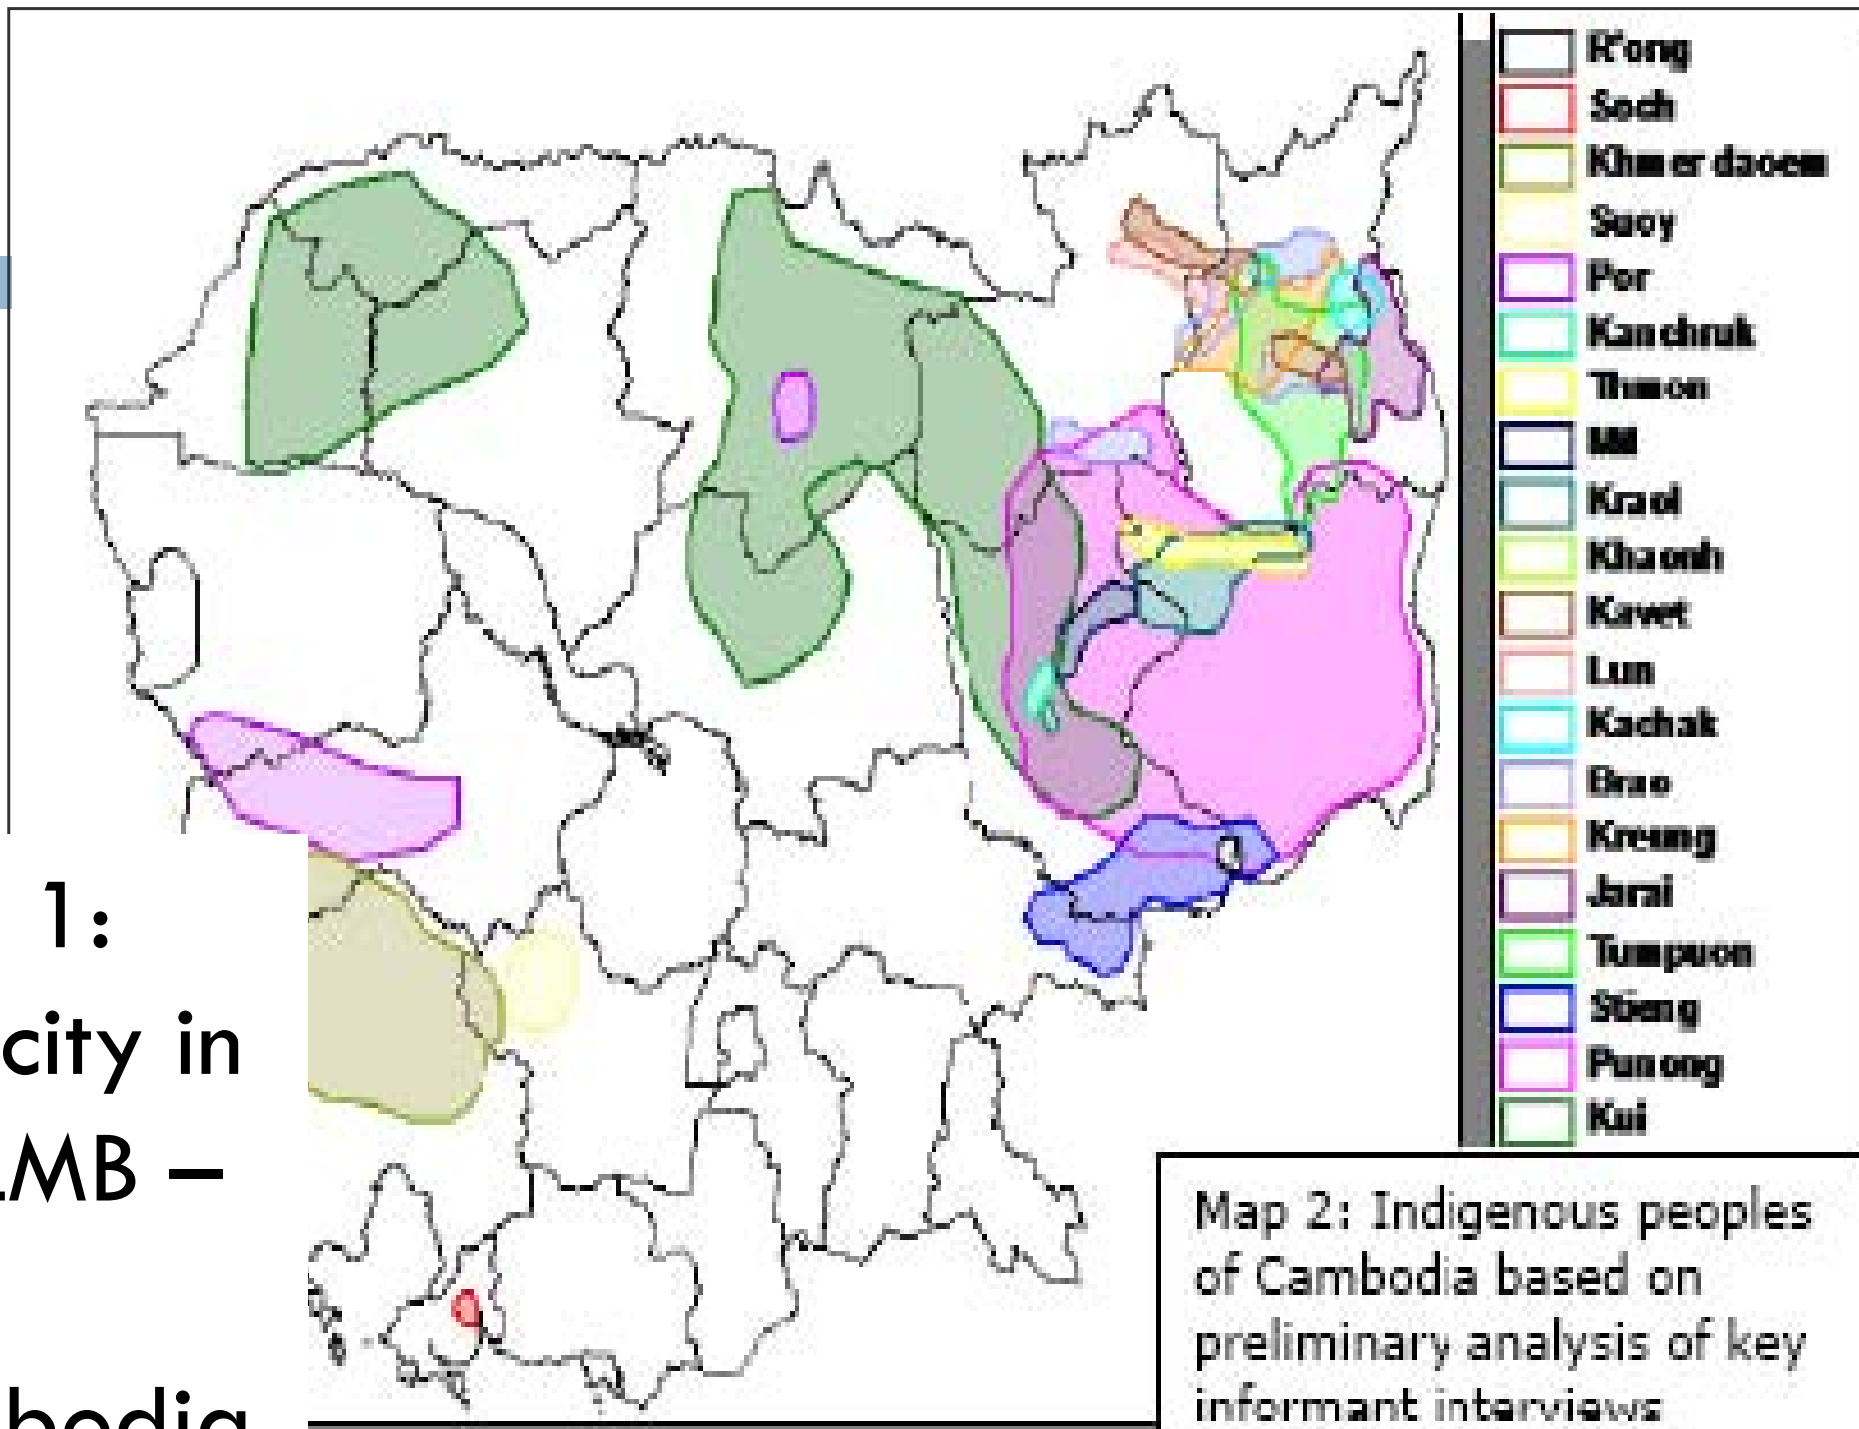

□ 9 groups, 1.22%

□ 48 groups, 47.5%

□ 54 groups, 54%

Issue 1:  
Ethnicity in  
the LMB –  
e.g.  
Cambodia

Map 2: Indigenous peoples of Cambodia based on preliminary analysis of key informant interviews

# Issue 1: Sample ethnic distribution in Lao PDR case study districts

# Issue 1: Poverty & Ethnic Identity

<b>Total Lao PDR</b>	<b>% of National Population</b>	<b>Incidence of Poverty Headcount Index (% of pop.)</b>
	100	33.5
<b>Geographic Area</b>		
Urban	23	19.7
Rural	77	37.6
<b>Ethnolinguistic Family</b>		
Lao	66.6	25
Mon-Khmer	20.6	54.3
Hmong-lu Mien	8.4	40.3
Chine-Tibet	3.3	45.8
Other	1.1	48.4
<b>Gender of Household Head</b>		
Male	94.9	31
Female	5.1	28

## Issue 1: Demography & Livelihoods of Mekong River Riparian Provinces

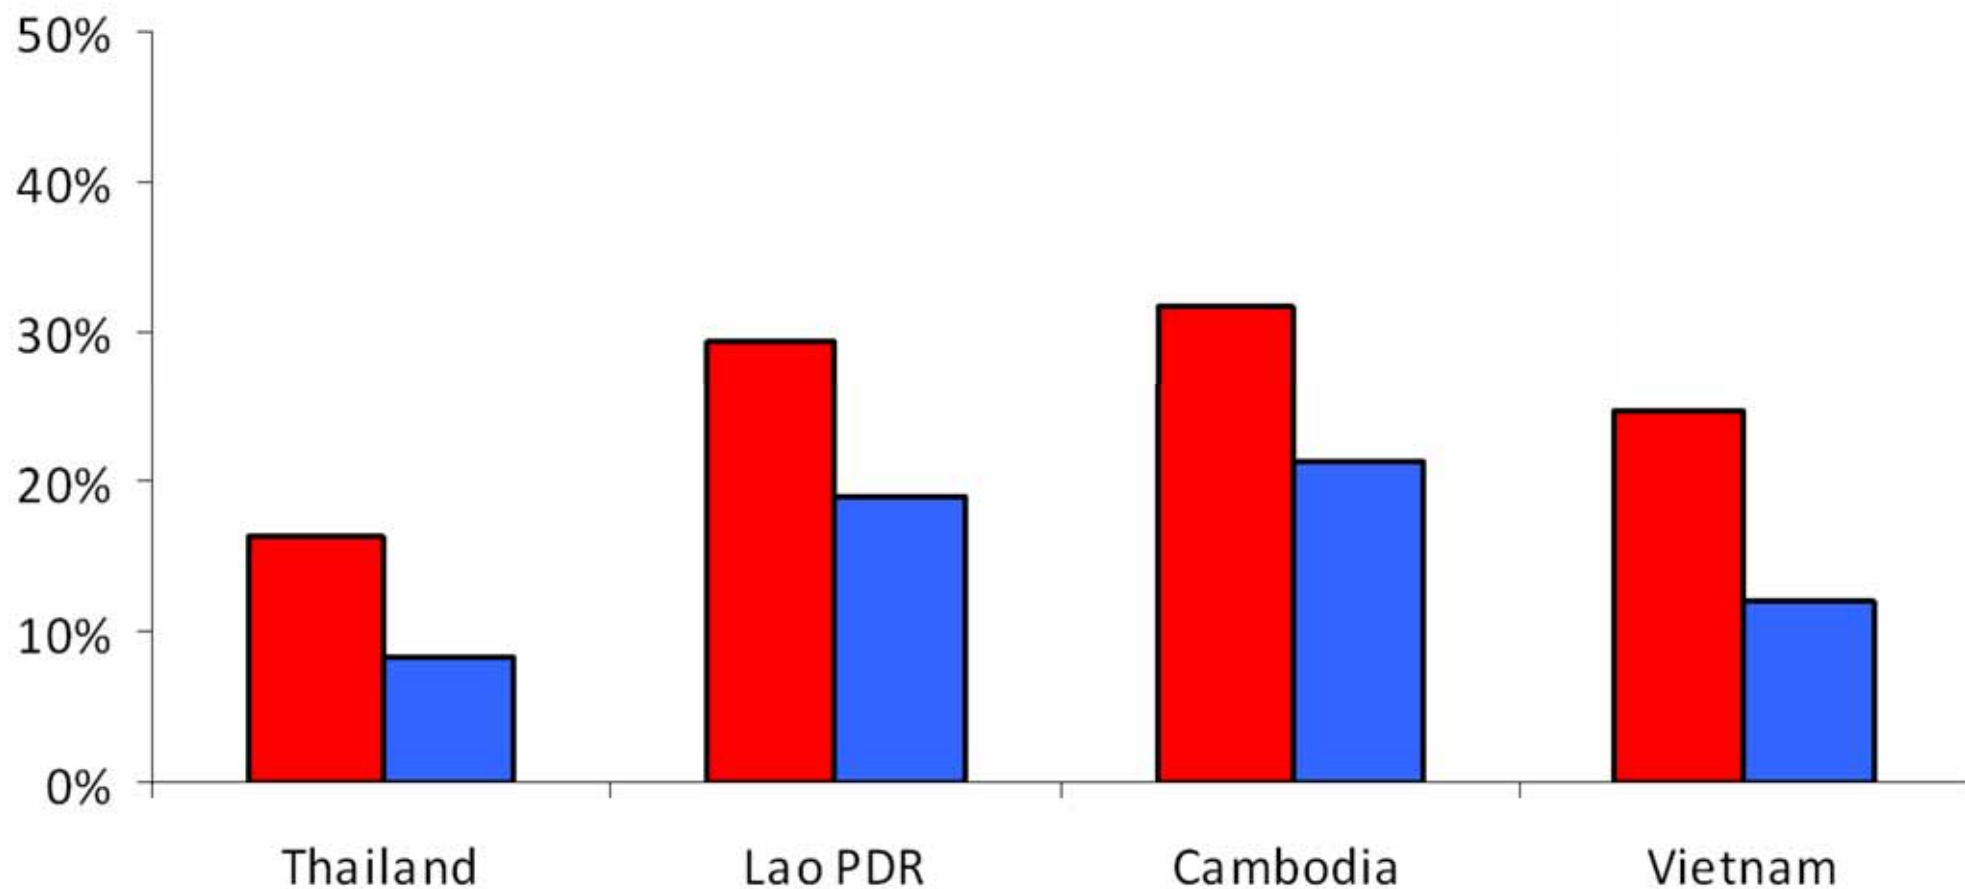

<b>Country</b>	<b>Total population</b>	<b>% Mekong river Riparian Population</b>	<b>% National population</b>
Lao, PDR 11 provinces	4,094,984	14%	66%
Thailand 7 provinces	5,666,451	18%	8%
Cambodia 5 provinces	4,323,393	13%	29%
Vietnam 13 provinces	17,614,400	55%	20%
<b>Total 36 provinces</b>	<b>31,699,228</b>	<b>100%</b>	

# Social Issue 2: Health & Nutrition

- MDG Health & Nutrition indicators
- Life expectancy
- Food security & dependence on natural resources
- Water & sanitation
- Public expenditure on health and food security strategies

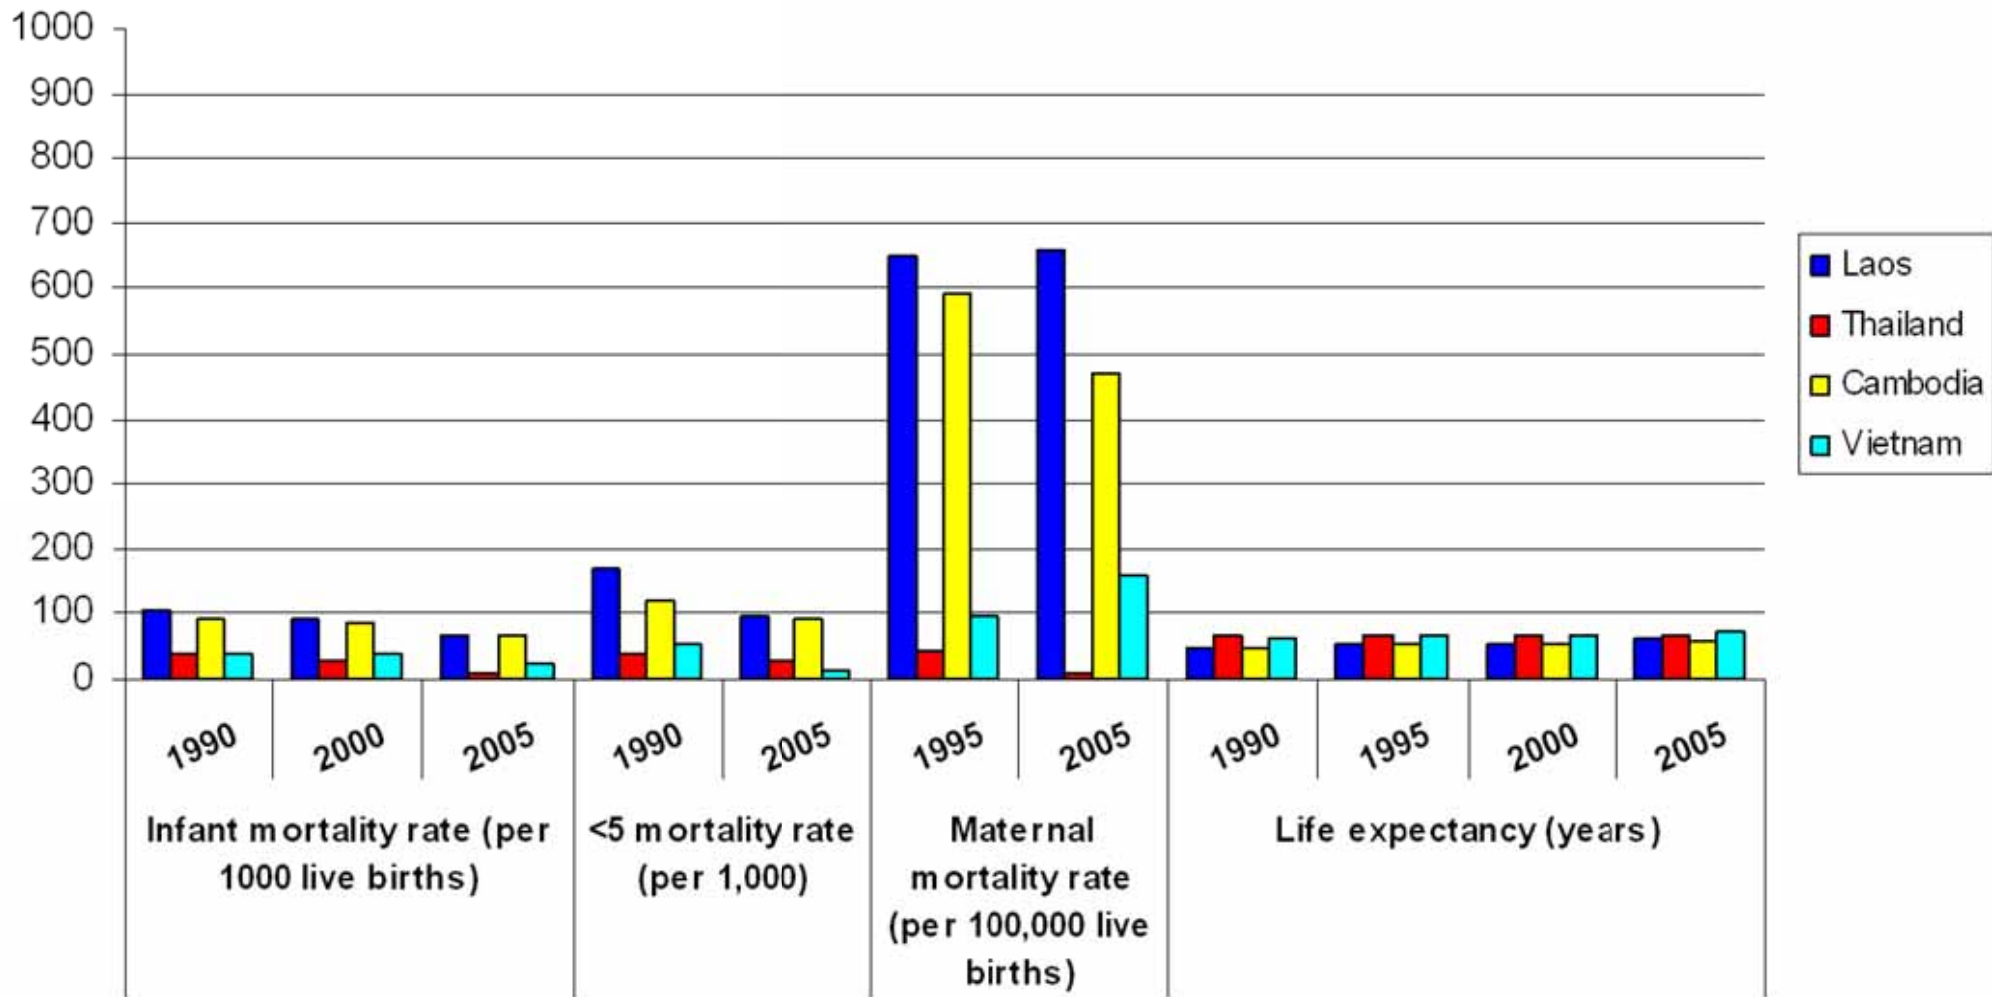

## Issue 2: Nutrition & Food Security

■ % population experiencing hunger 1990 ■ % population experiencing hunger 2009

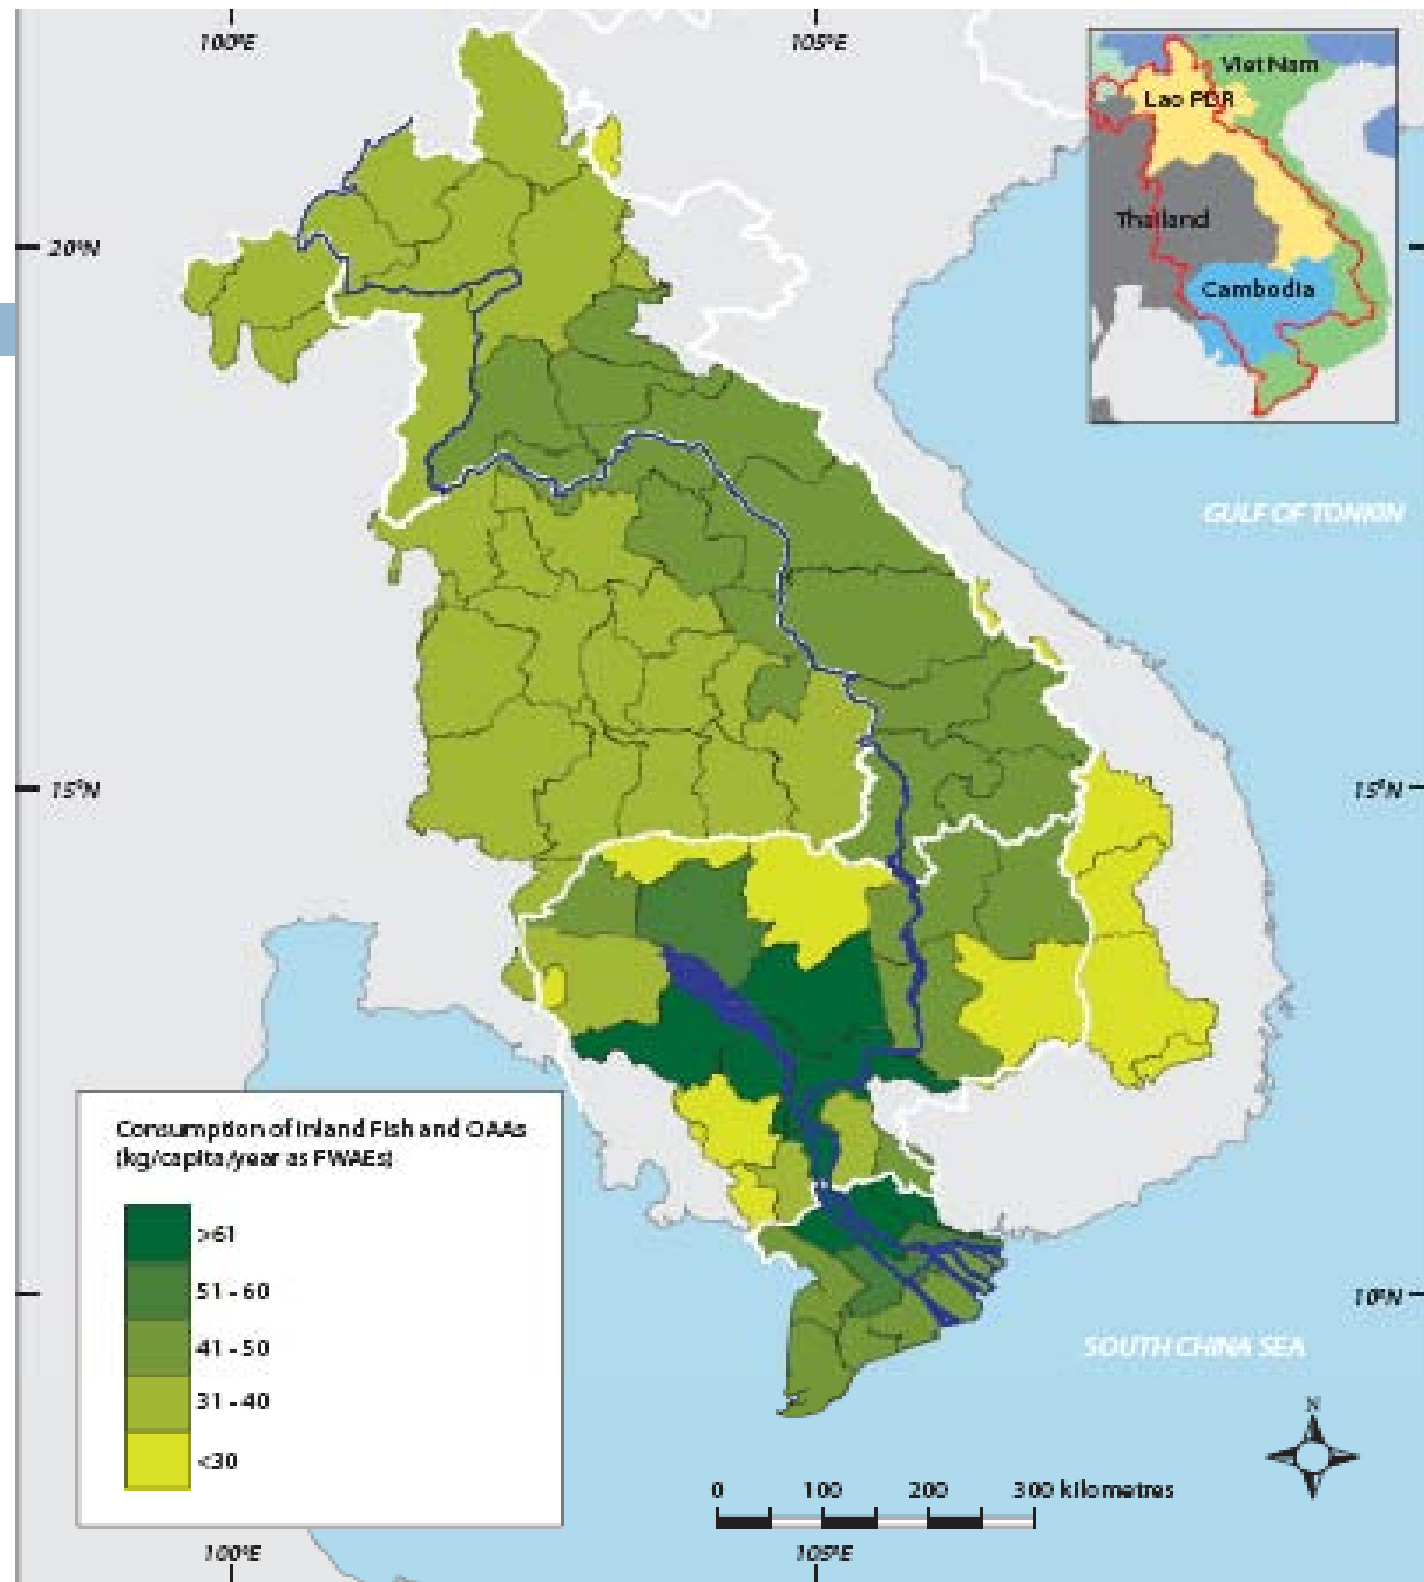

# Issue 2: Trends in sample MDG key health indicators in LMB

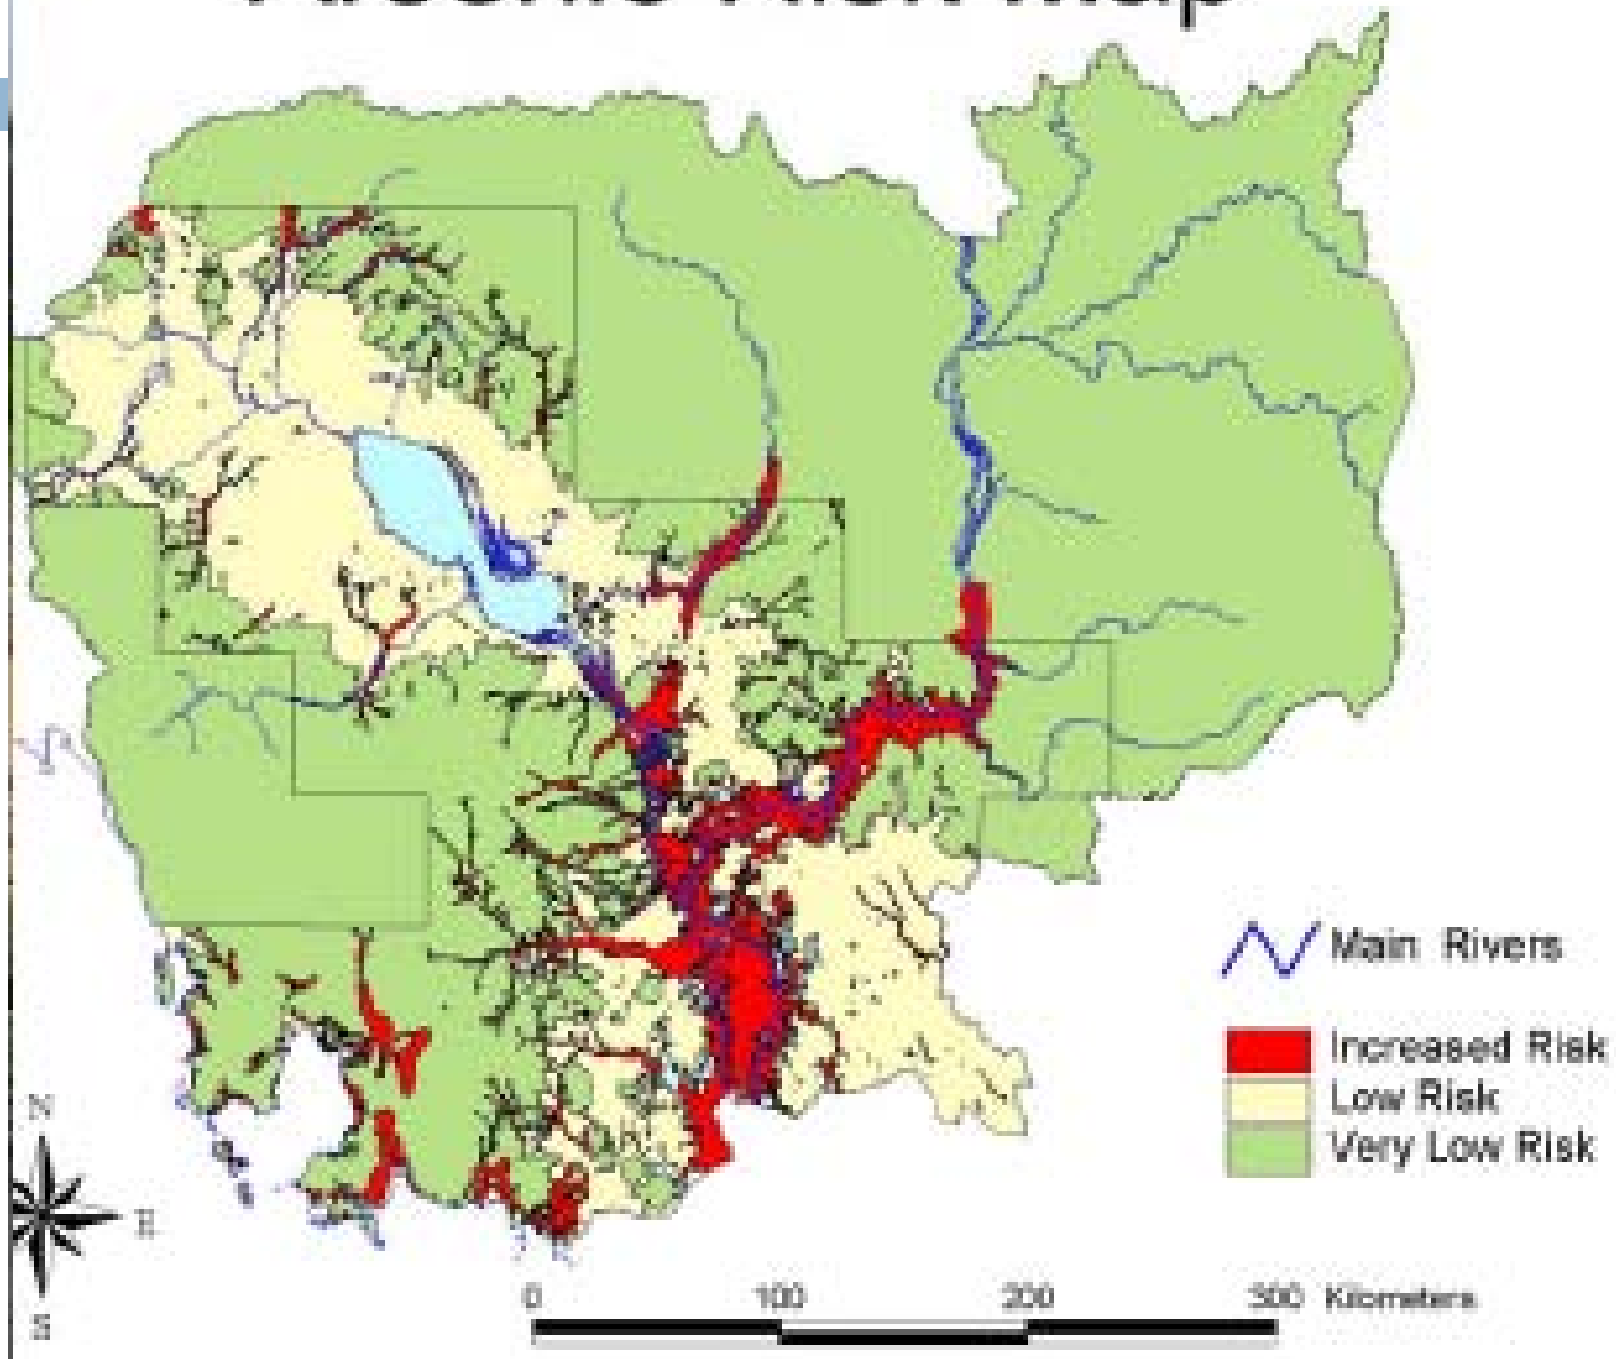

## Issue 2: Fish & other aquatic animals consumption

# Arsenic Risk Map

Issue 2:  
Current  
health  
threats

## Social Issue 3: Resettlement, Migration, Population Growth, Urban Development & Human Trafficking

- Policies & legislation relating to resettlement
- Country differences in policy application
- Other forms of resettlement
- Incidence of Human Trafficking in the LMB

## Issue 3: Resettlement – National Legislation & Policy

- Diverse and numerous legal provision for resettlement in each of the LMB countries
- Significant differences between line agencies in resettlement policies
- Resettlement increasingly common solution due to rapid development
- There may be a lack of consistency between countries which for trans-boundary projects may lead to inequities
- Historically experience has not been good, now countries are more aware of the issues

# Issue 3: Resettlement Variations between LMB countries

Examples of Best International Practice		National Legislation			
		Laos	Thailand	Cambodia	Vietnam
1	Avoid displacement by revising technical specifications and/or providing embankments	Mandatory	None	None	None
2	Scope of impact Includes all affected areas eg. construction site. associated facilities such as access roads, transmission lines, upstream and downstream areas, canals, borrow pits, spoil areas, contractor's camp sites	Mandatory	Partial	Partial	Mandatory
3	Traditional & informal land or resource users without formal documentation also entitled to compensation and livelihood restoration	Mandatory	None	None	Partial
4	Compensation not restricted to assets, but includes livelihood restoration	Mandatory	None	None	Mandatory
5	Community health programme	Optional	Partial	None	None

# Issue 3: Human trafficking in the LMB

- Human trafficking increasing problem in all riparian countries – both internal and cross border
- Evidence to link large scale development with increases in trafficking
- In Lao PDR the most affected provinces are Oudomay, Xayaboury, Bokeo, Luang Prabang, Vientiane, Champassack, in Thailand, Chiang Rai and Ubon Ratchathani and in Cambodia in Stung Treng and Kratie. Vietnam also has a significant trafficking problem on the Mekong delta.

# Future Trends Without Mainstream Dams – Poverty Reduction

- Good progress towards achieving MDGs in all LMB countries, some progressing faster than others
- Increased population migration to urban centres and greater density of urban poverty
- Increasing movement of population from mountain to mainstream communes
- Increasing degradation of natural resources and related livelihoods with nutritional implications
- Increasing depopulation of remote and poor areas
- Increasing populations in areas subject to major resource development (e.g. mining)
- Food security increasing in some areas (where land tenure is secure and markets developed), and decreasing in others (where compulsory relocation has occurred)

## Future Trends, cont.

- Increasing inequality associated with uneven development benefits spatially and between groups
- Institutional capacities for poverty reduction and resettlement in many line agencies improving, but not keeping pace with rate of development (i.e. Institutions cannot cope with vulnerable community's needs)

# Future Trends: Health & Nutrition

- Improving communications and transportation may lead to increased transmission of some diseases (e.g. HIV/AIDS) as well as of trafficking
- Health and nutrition improvements are not keeping pace with the impacts of major development and require significant reorientation of public policies
- Potential for increased groundwater contamination (Cambodia/Vietnam) with arsenic & saline intrusion with associated health and livelihood risks increasing
- Food security risks increasing as degradation of natural resources increases
- Increased vulnerability of communities moving from subsistence to market economy, and raising susceptibility to specific hazards

## Future Trends: Resettlement & Migration

- Local administrative capacity to manage risks, apply national policies and monitor application, continue to be limited. Development moving faster than capacity to address consequences
- Continued risks of impoverishment of communities experiencing involuntary resettlement or migration due to major development projects
- Trans-boundary disputes could occur and will increase without a common grievance settlement framework
