2007	2008	2009	2010	2011	2012
Limited integration of environmental concerns in national or sectoral plans and strategies; national environmental agencies under-resourced and overextended.	KDP 2008-11, Vanuatu PAA 2006-2015, TK-II 2005-2015, Fiji SDP 2007-2011.	CC, BD and LD coordinated/integrated into national plans. (Fiji, Tonga). Increasing support for oceanic fisheries management in all 14 countries.	Improved coordination /integration of CC, BD, LD Support for integrated water resource management commenced and support for funding access continued.	Improved knowledge to integrate CC, BD, LD into policies resulting in sound land management practices, reduced fuel bills, drafting of plans to improve water resource & wastewater management.	CC and Energy Sust are adequately incorporated in to national plans and budgetary frameworks. NEPs continue to be supported through MEA-initiatives that mobilize resources for implementation of strategies and sectoral plans.

INDICATORS:

- # NDSs, policies, plans incorporating environmental sustainability issues;
- % increase in national budget for environmental sustainability issues; and
- # of PICs with strategic environmental action plans implemented and monitored.

2007	2008	2009	2010	2011	2012
Inadequate capacities of communities to practice responsible and equitable harvesting of natural resources.	CB pilot activities (Vanuatu). Start-up of SGP targeting CB activities to demonstrate policy work	Support to local BD by national and provincial governments. CB supported through capacity building activities.	Strong progress in improving effective and sustainable management of environmental and natural resources, especially at the community level	Continued support for CB activities through SGP. Climate resilient development demonstrated in Tuvalu and lessons fed into community action plan.	Effective and sustainable management of environment and natural resources.

INDICATORS:

- Ratio of area protected to maintain biological diversity (marine and terrestrial) to surface area;
- % of pilot initiatives in sustainable livelihood and environmental management;
- # of youth and women generating income through pilot initiatives;
- # of pilot initiatives up-scaled towards national impact.
