

# Acknowledgements

This publication would have been impossible without the hard work and unwavering dedication of a large number of scientists and experts in the GIWA network. Over 1 500 experts around the world have contributed most of the data and analyses in the regional and thematic assessments which were used as a basis for producing this final report of GIWA.

This publication has gone through a lengthy drafting period. UNEP would like to acknowledge the following persons who have contributed to the production of this report (in alphabetical order):

Juan Carlos Belausteguigoitia	Sanna Mels
Kristin Bertilius	David Moffat
Pierre Blime	Joakim Palmqvist
Dag Daler	Elina Rautalahti-Miettinen
Matthew Fortnam	George Roman
Rasmus Göransson	Pinya Sarasas
Pertti Heinonen	David Souter
Gotthilf Hempel	Johannes Wolpert
